

GLOBAL HYBRID ROOFING SOLUTIONS

## Old World Spanish Accessories

**Eave Starter:** 11 3/4" Length x 2 1/2" Width  
Designed to provide proper cant and finished appearance at the eave line.

**Ridge Closure:** 11 3/4" Length x 3" Width  
Used at the ridge and headwalls to close off the top of the tile and provide a finished appearance.

**Bull Nose/Hip Starter:** 17 1/2" Length x 7 3/4" x 8 3/4" Width  
Designed to be the first piece of trim to start hips and ridges, the bull nose/hip starter provides a professional finished look.

**Hip/Ridge:** 17 1/2" Length x 8 1/4" x 9" Width  
This smaller radius trim is generally used on hips, but may be used on ridges if desired.

**Top Ridge:** 17" Length x 10" x 10-3/8" Width  
This larger radius trim is used on ridges. The wider design is suitable for continuous ridge vent installation and will provide a bolder look at the ridge.

**Rake Edge:** 16" Length x 5 1/2" x 6 1/2" Width  
Rake trim is the finishing touch used along the gables. The pieces are universal and will fit right and left sides.
