

GLOBAL HYBRID ROOFING SOLUTIONS

## GHR OLD WORLD SPANISH

GHR Old World Spanish Tile evokes delightful visions of European Old World Tile.

Reminiscent of structures showcasing mission roof tile, this barrel tile comes in the traditional Terra Cotta, but is also available in multi-colored tile blends and aged tile coloring blends. The lightweight feature makes this double roman style tile a desirable alternative to a clay roof which often requires additional, costly structural support and is more labor intensive to install. This environmentally friendly roof tile contains high quality recycled products, is extremely durable and colored throughout.
