

## RENOVAR™

Global Hybrid Roofing Solutions turn our proprietary and revolutionary RENOVAR™ technologies into the most environmentally friendly, durable and longest lasting roofing product in the World.

These products are not only recyclable, they are manufactured using all types of post consumer polyolefin waste, thus diverting from landfill immediately and reducing environmental pollution.

With over One Hundred and Twenty Five approved Test Certificates, we are unrivalled by any competitor and are the only accredited synthetic composite roof product manufacturer that carries full unrestricted international accreditation for its entire product range.

GLOBAL HYBRID ROOFING SOLUTIONS

*Innovative Elegance  
That Endures*

### **Old World Slate**

**GHR** Old World Slate is the only composite roofing product on the market available in five standard colours and five standard blends. The multi-colour process gives each Slate a unique vein blend throughout the product, producing a unique and authentic roofline.

### **Slate**

**GHR** Slate has the aesthetic appearance of natural Slate without the many constraints associated with natural Slate. Cast from natural Slate gives this product a classical natural appearance. Available in five standard colours rivaling that of natural Slate.

### **Shake**

**GHR** Shake offers a realistic, true to life hand split textured rivaling that of natural Cedar Shake but with all the benefits of a composite roofline. Like all **GHR** products the Shake is manufactured using 100% recycled resins that are maintenance free, coming in six standard colours and three standard blends.

### **Spanish Tile**

**GHR** Slate Tile evokes delightful visions of authentic European Old World Tiles; this profiled tile comes in seven standard colours and seven standard blends the product is extremely lightweight and unrivaled in the roofing industry as well as being the only composite Spanish Tile on the market.
